PROFESSIONAL SUMMARY

BSc Information Technology student at GLS University, currently in Semester 3, with hands-on experience in web development, AI tools, databases, and rapid prototyping through personal projects and hackathons. Built and presented practical technology solutions using modern web stacks, Git/GitHub, and AI-enabled workflows. Seeking software development, full-stack, or AI/ML internship opportunities.

EDUCATION

GLS University — Bachelor of Science in Information Technology (BSc IT)

2025 – 2030 | Ahmedabad, Gujarat | Semester 3

TECHNICAL SKILLS

Languages: C, C++, JavaScript, TypeScript, Python, SQL, HTML, CSS

Web: SvelteKit, Next.js, React, Tailwind CSS, Three.js, Threlte

Backend & Data: Node.js, REST APIs, PostgreSQL, Supabase, Prisma

Tools: Git, GitHub, Vercel, VS Code, Linux/Ubuntu

Core: Object-Oriented Programming, DBMS, Data Structures, API Integration, Generative AI

PROJECTS

VeriShield AI — Field-Mode Identity Verification

- Worked on an offline-first identity verification solution for field environments.
- Developed workflows involving OCR/document processing, checksum validation, and device-side screening.
- Applied software testing and validation practices during development.

FarmSathi — Token-Based Village Equipment & Labour Exchange Platform

- Developed a platform concept enabling village-level exchange of agricultural equipment and labour through a token-based system.
- Focused the solution on rural resource sharing, accessibility, and community collaboration.
- Developed and presented the concept as part of hackathon work.

Interactive Developer Portfolio

- Built an interactive developer portfolio using SvelteKit, TypeScript, Tailwind CSS, and Three.js/Threlte.
- Implemented responsive UI, animation-driven sections, project case studies, certifications, and contact functionality.
- Used Supabase/Vercel within the project workflow for data/backend and deployment needs.

HACKATHONS & LEADERSHIP

HackOut'26 — Dhirubhai Ambani University (DA-IICT) | Team Member | 72-hour hackathon

- Worked on a Peer-to-Peer Renewable Energy Trading web platform addressing surplus renewable-energy exchange.
- Contributed to problem scoping, product development, debugging, technical decisions, and final presentation under time constraints.

Smart India Hackathon — Internal Round | Participant

- Participated in the institute-level/internal selection process and worked on an identity-verification-focused technology solution.

CERTIFICATIONS

- AI Fluency: Framework & Foundations — Anthropic
- Deloitte Data Analytics Job Simulation — Deloitte
- Gemini Certification for Students — Google
- AI Tools Workshop — Be10x
- Basics of Prompt Engineering for AI Tools — GLS University

ADDITIONAL

Interests: Software Development, Full-Stack Web Development, Artificial Intelligence, AI/ML
